

LIRR Expansion Project Floral Park to Hicksville

TO: Floral Park Residents
FROM: 3rd Track Constructors

3rd Track Constructors hired an independent, ISA-Certified arborist, to advise its construction management team about trees along the project corridor that would be impacted by construction. 3rd Track Constructors will be removing trees along Terrace Ave in the next several days. These trees that are immediately adjacent to the right-of-way and on village property would be negatively impacted by construction activities that would damage their roots. In the opinion of the professional arborist, some trees will not survive that damage.

The work that is to be performed along the right-of-way is the installation of the retaining walls and sound walls.

Commitments made by the MTA/LIRR to the Village of Floral Park in the form of a Memorandum of Understanding, and contractually between the MTA and 3rd Track Constructors, include programs for tree replacement and landscaping along the street-facing side of the right-of-way.

Please feel free to contact 3rd Track Constructors with any additional questions or comments.
