DEPARTMENT OF BUILDINGS APPLICATION FOR LICENSE

AFFIDAVIT OF EXCAVATION OR DEMOLITION

ARTICLE 36 NEW YORK STATE GENERAL BUSINESS LAW

Article 36 of the New York State General Business Law requires that no excavator shall commence or engage in any excavation or demolition unless and until timely notice is served of the location and date of the proposed excavation or demolition as provided in article 36 to operators who maintain underground facilities in the area in which the excavation or demolition is to take place. The provision of such notice to a one-call notification system is deemed to be compliance with this section; and notice to the one-call notification center is notice to each member. Such notice shall be served in accordance with the rules and regulations adopted by the public service commission pursuant to section one hundred nineteen-b of the public service law.

INDUSTRIAL CODE RULE 56

Pursuant to Industrial Code Rule 56, prior to demolition or disturbance, notification is to be made in the appropriate form to the New York State Department of Labor Asbestos Control Bureau regarding any asbestos removal, disturbance, encapsulation or required asbestos surveys before commencing any work.

EPA LEAD RENOVATION, REPAIR AND PAINTING RULE

The US Environmental Protection Agency (EPA) mandates that any contractor or worker who performs renovation in a pre-1978 apartment, school or facility (including private homes) must be trained and certified in EPA Renovation, Repair, and Painting (RRP). Anyone who is paid to perform work that disturbs lead-based paint in homes, child-care facilities and pre-schools built before 1978 must be certified. This may include, but is not limited to, residential rental property owners, general contractors, painters and special trade contractors (such as, plumbers, carpenters, and electricians).
